We wish to thank Peggy Loeb for information on the history of the college, Deborah Smiley for her direction with the cover design, Ross Farnham, as the senior portrait photographer, and special thanks to Dick Swiech of Hunter Publishing Company for his guidance.

Historical excerpts are to be accredited to Kenneth Marks, author of the book, "Delayed by Fire", The Early History of Simmons College." c. 1945.

**Microcosm;** a part of a whole.

A society is not made up of a single person but rather it is made up of many people. During our four years at Simmons we have learned the importance of working collectively. Enormous changes will be taking place in the decade before us and we are eagerly looking forward to them.

Until recently, there were minor changes in education. However, innovative changes have been occurring in the political arena with emphasis placed on the importance of conserving our natural resources. John Anderson, Republican of Illinois, is one of our more progressive presidential candidates, who has received national recognition for the concern he has shown for energy conservation. This is viewed as an optimistic beginning for those of us who are graduating.

Simmons will continue to reach out into the community through the Class of '80 and making many contributions to society. These contributions are a result of the insight we have gained while at Simmons.

The decade of "me-ism" is over. We are leaving a hedonistic time and entering a new decade where people are working together for their society.

## FACULTY

OFFICE OF THE PRESIDENT  
SIMMONS COLLEGE

May 1980

Dear Class of 1980:

Shakespeare's seven stages does not include graduation from college and yet here you are, at a turning point. For the first time since you were five, you won't have a class schedule to live by or even courses to attend. For the first time, probably, you won't have parents checking you in and out, or even Simmons saying, "Please let somebody know where you are so that we can worry about you."

Camus said that freedom is nothing else but a chance to be better, which carries its own constraint. Now is the time when you begin to discover whether all those things you believe in are yours or simply your reactions to somebody else. Of course I believe that every four years you face is the best four years of your life, but the next four are exciting and can and should be most productive.

My only advice is think well of yourself and then work to earn that self-respect. And don't forget us back here: we're still part of your life and you of ours.

Yours,

*William J. Holmes*
